WORK EXPERIENCE

PLUMBING AND DRAIN TECHNICIAN

JAMIE PHAM PLUMBING AND DRAIN SERVICE
APRIL 2000 - MAY 2018

- Owned and operated a plumbing business for 18 years.
- Able to complete tough tasks in tight spaces and keep composed.
- Earned a reputation for fixing problems other plumbers couldn't

PROJECTS

- EMAIL SURVEY APPLICATION

A mass email survey app featuring webhooks to gather feedback for clients. I implemented google Oauth with passport, stripe to handle credit card payments and Sendgrid for emails and webhooks. I built an express server from scratch and integrated a create react app with a dev and production builds. Built with React-Redux on the front end and mongo db for a database. Styling done with CSS materialize.

- ME & YOUTUBE

A youtube mock app built with react. Utilizing the youtube api for searching videos. I tried to mock youtube's layout and made a more responsive search bar.
<https://tranquil-peak-98318.herokuapp.com/>

- ORIGIN FLASHCARD APP

A spaced repetition flash card Expo app built with React-Native, Loopback and MongoDB.

- ALBUM FINDER REACT-NATIVE

A react-native app that shows a scrolling list with artwork of Taylor Swift albums, and a clickable link that directs users to amazon where they can purchase each album. Why T. Swift? Why not?
